

## CYLINDERS

### SINGLE & DOUBLE ACTING CYLINDERS

- Single acting cylinders
- Double acting cylinders
- Aluminium cylinders
- Hollow cylinders
- Low profile cylinders
- Locknut cylinders

Explore the wide range of BOSS Hydraulics cylinders, to suit a variety of applications.

*Built for rugged industrial and commercial applications, all BOSS cylinders meet worldwide safety standards. The stop rings, bronze coated pistons and heavy-duty materials provide durable and dependable operation in harsh operating environments.*

*The BOSS spring return range of cylinders use a heavy-duty, wound steel-plated spring, to provide faster retraction and hold tension, whilst the threaded collars and internal piston threads are built to withstand the full load of the cylinder.*

*The in-built rod wiper cleans the rod surface during retraction, which protects the inner cylinder assembly from dirt, moisture and other contaminants. Single-acting steel cylinders have a nitrided finish for internal rust protection and aluminium cylinders are fully anodised.*

## PUMPS

### SINGLE & DOUBLE ACTING AIR / HYDRAULIC PUMPS

### ELECTRIC & TORQUE WRENCH PUMPS

### STEEL & ALUMINIUM HAND PUMPS

## NEW - BATTERY POWERED CORDLESS PUMPS

- Single and double acting options available
- Two speed operation
- Max working pressure 10,000 psi / 700 bar
- Available with 3 or 8 litre reservoir
- Powered by 2 x rechargeable Milwaukee Batteries - INCLUDED

**BUILT TO ORDER**

## BOLTING

- Square drive hydraulic torque wrench
- Low clearance hydraulic torque wrench
- Pneumatic torque wrench
- Full range of torque wrench accessories
- Hydraulic torque wrench pumps & twin line hoses

## SQUARE DRIVE TORQUE WRENCHES

## LOW CLEARANCE TORQUE WRENCHES

## PORTA POWER

AVAILABLE IN 4, 10 & 20T KITS

## WORKSHOP TOOLS & ACCESSORIES

- Spreaders
- Pullers
- Lifting Wedges
- Nut Splitters
- Hoses
- Cribbing

## BENEFITS OF HDPE CRIBBING

- Uniform shape, size, & strength
- Weight rated & colour coded
- No natural weak points, knots, cracks, splits or splinters
- Lightweight & easy to handle
- Zero water / liquid absorbency
- Free from paint or finishes
- Resistant to chemical corrosion
- 100% recyclable and made from 100% recycled high density polyethylene

## PT Hydraulics Australia - The home of BOSS Hydraulics

PT Hydraulics is an Australian owned and operated company that supplies quality hydraulic products to the Industrial, Rescue & Rail sectors.
